“Alex is a fierce achiever with unwavering ambition.”

— Michelle Shum (Lumin Manager)

## ≡ IN A NUTSHELL

Pro at web development, and making things look beautiful.

### What do I bring to the table?

I have years of experience developing professional web applications ready to be used. My background in web development brings forth my passion to learn the most up-to-date tools, frameworks, and technologies. My passion to solve problems and create beautiful designed applications will make me a valuable asset for any team.

## 👥 EXPERIENCE

### Lumin (In Development)

An app made for Lumin Jewelry to display all 300+ products in an organized and well-designed format. This app uses a self-made scraper bot that creates an Esty API of all products, and reviews to produce a readable JSON. In addition, Lumin features PayPal/Stripe integration, Admin Panel, D3.js Admin Visualizations, Custom Content Management System, and user profiles. This app utilizes these technologies:

- Next.js
- Redux
- D3.js
- MongoDB
- Mongoose
- NoSQL
- PayPal API
- Etsy Scraper
- CMS

### Picture a Day ([bit.ly/PictureADayNasa](http://bit.ly/PictureADayNasa))

An app that uses NASA APOD API to show interesting astronomical pictures with a description to understand more about space. The app features daily content generation while utilizing:

- React
- React Router
- Mobile-First
- Responsive
- NASA API
- SASS

### Path of Exile Trade ([bit.ly/PoETrade](http://bit.ly/PoETrade))

An app that enables players to trade between each other using Path of Exile's Trade API, and with a self-made API to cache all in-game items. The app features autocomplete categorized search suggestions (which can be used with arrow keys), displays all notable trade data in an organized format and generated clipboard message on a click. I made this app utilizing these technologies:

- React
- SASS
- Clipboard API
- PoE Trade API
- Item API
- Responsive

## 🎓 EDUCATION

### Bachelor of Science: Computer Science | York University

2013 — 2016
